

Centralia Police Community Policing Events

The Centralia Police Department takes great pride in our commitment to community policing, recognizing its paramount importance in our profession. Community policing revolves around proactive problem-solving, and we want to assure our community that our dedicated events will never impede upon emergency or non-emergency calls for service.

By affording our officers the opportunity to invest more time in collaborating with citizens, we enhance our ability to address and resolve crime and disorder issues through the cultivation of robust relationships. Improved communication between the police and citizens enables effective sharing of crime-related information, fostering a cooperative environment. Through these efforts, we aim to continually strengthen and safeguard our community.
