

Rezoning Application

Information regarding the rezoning process can be found in the Centralia [City Code Section 31-7 through 31.9](#). Once the application and all supporting documentation is submitted to the City Administrator, a public hearing date will be set for the proposed rezoning before the Planning and Zoning Commission. A second public hearing date will be set before the Centralia Board of Aldermen.

All public hearing notices are posted in the Centralia Fireside Guard within two weeks of the first hearing date, and may also be published on the City's website and social media outlets.
